Dear Sir,

QUARTERLY REPORT FOR THE PERIOD ENDED 31 MARCH 2009

1. GARDEN GULLY (M 15/675), WESTERN AUSTRALIA

As announced on 28 April, this tenement has been sold to Focus Minerals Ltd.

2. BLUE FUNNEL (M 16/19), WESTERN AUSTRALIA

The Blue Funnel open pit is located on the Zuleika Shear, approximately 17 kilometres to the northeast of Kundana, and was mined in the late 1980s for **205,579 t @ 3.22 gpt Au**. There is strong potential for additional resources below the existing pit floor, and requires further investigation.

The company has been approached by a third party to either acquire or joint venture into the Blue Funnel project. Negotiations are at an early stage.

3. TWIN HILLS (M 29/21), WESTERN AUSTRALIA

The Twin Hills project is located 27 kilometres to the northeast of Menzies in the Eastern Goldfields. The historic Twin Hills mine hosted high-grade gold mineralisation and shows the potential for additional resources at depth and along strike.

A review of both the near mine, and regional, potential continues over the project area.

4. PROJECT GENERATION

The Company has an active programme of project generation and is assessing a number of properties, both in Australia and overseas for possible joint venture or acquisition. Shareholders will be updated as this programme proceeds.

Yours faithfully
Norman Grafton
